

EuropeLIFT

optimize reaching

TR21GT

- Working height: 20,8 m
- Horizontal Outreach: 10,8 m (100 kg)
- Up & Over: 8 m
- Min. Machine width: 0,79 m
- Articulated telescopic boom with moment control system
- Flyjib: 1,3 m
- Hydraulic platform rotator
- Track setting in width and height
- Massive working platform
- Auto chassis level
- Auto-home function
- Cable Remote control for drive and outriggers
- Built in Wifi connection for worldwide service support
- Short training time

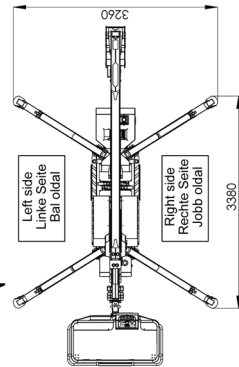

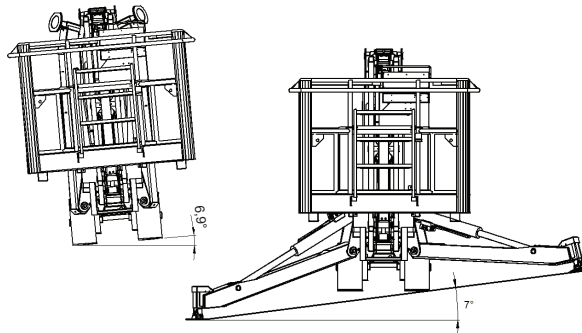

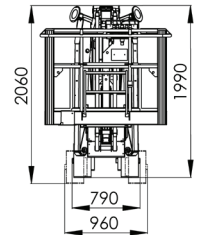

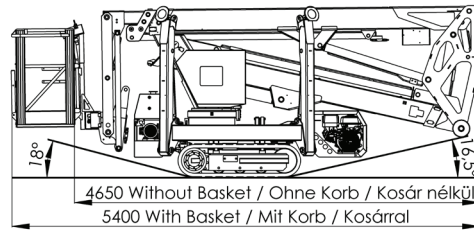

TRAILER MOUNTED BOOM LIFT

EuropeLIFT

TYP: TR21GT

Technical data	TR 21 GT
Working Height	20,8 m
Platform Height	18,8 m
Horizontal Reach (220 kg)	8,4 m
Horizontal Reach (100 kg)	10,8 m
Max. Platform capacity	220 kg
Slewing	365°
Flyjib	1.3 m
Platform dimensions	1,4x0,7x1,1 m
Platform rotator	2x65°
Transport lenght	5,45 m
Transport lenght without platform	4,87 m
Transport width without platform	0,79 m
Transport height	1,99 m
Total weight	2930 kg
Outrigger footprint Outrigger plate outer edge	3,26 m
Gradeability	6,9 %
Energychain	inside

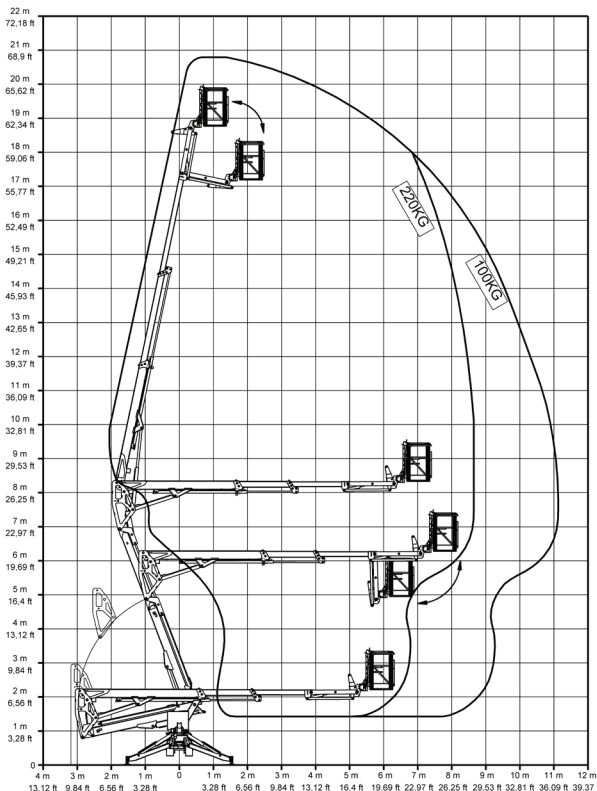

STANDARD FEATURES

- 20,8 m working height
- 10,8 m horizontal reach
- Up & Over clearance 8 m
- Auto chassis leveling and Auto-home function
- Non marking tracks
- Width and height adjustable tracks (manual)
- Aluminium basket with wide tool tray, safety handrail
- Proportional electro-hydraulic control by fingertip joysticks
- Cable remote controll for track outriggers and jib
- Ground pressure sensors on every outrigger plates with visible and accousting signal
- Ground and work platform control
- Chassis level sensor 1° with accoustic alarm
- 230V plug in the work basket
- Lower and upper controls tarpaulin covers
- Hydraulic platform rotator
- Hydraulic platform leveling with auto correction at 3°
- High-gloss paint, color: red RAL 3002
- 230V & Honda iGX engine

OPTIONS

- Custom colour
- Outrigger plates 400x400x30 mm
- Air and water line to platform
- LED flashing lights on outriggers
