

EuropeLIFT

optimize reaching

TR18GT

- Working height: 18 m
- Horizontal Outreach: 10,5 m (100 kg)
- Articulated telescopic boom
- Flyjib 1,3 m
- Hydraulic platform rotator
- Auto chassis leveling
- Ground pressure sensors on all outrigger plates with audible and visible alarms
- Adjustable width and height tracks
- Alu basket with wide tool tray safety handrail
- Auto-home function (standard)
- Short training time
- Built in Wifi connection for worldwide service support

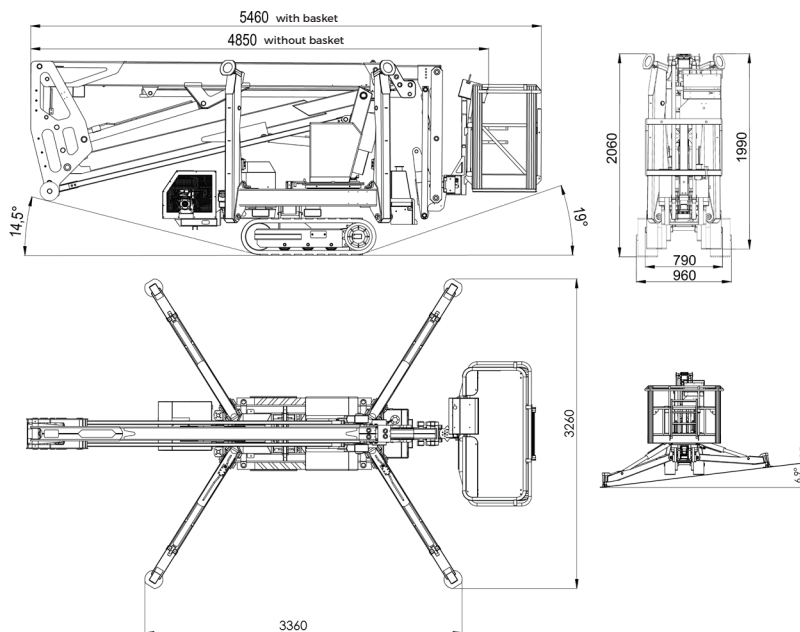

TRACK MOUNTED BOOM LIFT

EuropeLIFT

TYPE: **TR18GT**

Technical data	TR 18 GT
Working Height	18 m
Platform Height	16 m
Horizontal Reach (220 kg)	8 m
Horizontal Reach (100 kg)	10,5 m
Max. Platform capacity	220 kg
Slewing	365°
Flyjib	1.3 m
Platform dimensions	1,4x0,7x1,1 m
Platform rotator	2x65°
Transport length (A)	5,46 m
Transport length without platform	4,85 m
Transport width without platform	0,79 m
Transport height	1,99 m
Total weight	2530 kg
Outrigger footprint (D) Outrigger plate outer edge	3,26 m
Gradeability	6,9 %
Energychain	inside

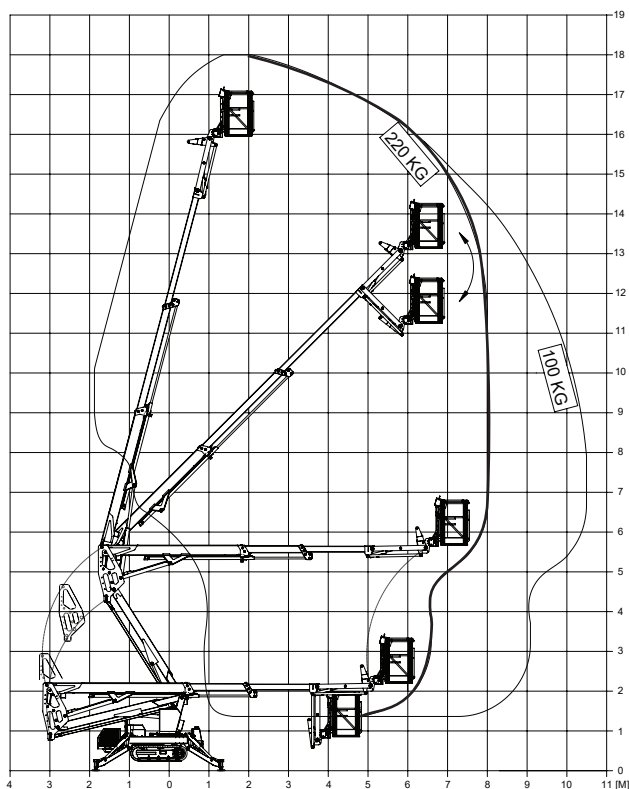

STANDARD FEATURES

- 18 m working height
- 10,5 m horizontal reach
- Auto chassis leveling
- Non marking tracks
- Width and length adjustable tracks (manual)
- Alu basket with wide tool tray, safety handrail
- Proportional electro-hydraulic control by fingertip joysticks
- Cable remote track and outrigger remote control
- Ground pressure sensors on all outrigger plates with acoustic and visual alarm
- Ground and work platform control
- Chassis level sensor 1° with acoustic alarm
- 230V plug in the basket
- Lower and upper control panel tarpaulin covers
- Working hour meter
- Manual pump emergency control
- Hydraulic platform rotator
- Hydraulic platform leveling with auto correction at 3°
- High-gloss paint, color: red RAL 3002
- 230V & Honda iGX power source with electric speed control
- Slewing ring (620mm)

OPTIONS

- Custom colour
- Outrigger plates 400x400x30 mm
- Air and water line in the work basket
- LED flashing light on outriggers
